3. Objectives of the Programme : To aware the students about Geographical Knowledge and space expeditions of India
4. Outcomes of the Programme : Students acquire knowledge about India's mission

Chandrayan 3

'PPT Presentation on India's Mission Chandrayaan 3'

The enlightening discourse on 'India's Mission Chandrayaan 3' were jointly organized by the Department of Geography and IQAC. In light of the remarkable triumph of India's mission Chandrayaan 3, the entirety of the Indian populace is brimming with pride. The success of India's mission Chandrayaan can be attributed to the ceaseless endeavors of the preceding and current government, as well as the scientific community involved in this arduous process. This mission holds the promise of unveiling and scrutinizing the comprehensive geological panorama of the Moon. Asst. Prof. Aishwarya Hingmire presented meticulously researched insights into the process and future implications of Mission Chandrayaan 3 to the students via a captivating PPT presentation and an accompanying video. Through this erudition, the students obtained a profound comprehension of the interplay between outer space and our terrestrial realm. It proved to be an intellectually stimulating encounter for the students.

Dr. R. K. Shanediwan Principal of the college, graced the occasion as the distinguished guest. He expressed contentment that scientific tools of knowledge were being made accessible to the students through such engaging activities and urged them to imbibe the acquired knowledge into their lives. He expressed gratification at the fact that the students are fostering a deep sense of appreciation for the relentless efforts bestowed upon this mission by our nation's countless scientists. The program was meticulously arranged by the Department of Geography, and the students' active participation and enthusiastic response were spontaneous in nature.
